

Ar-Rabb

The Lord & Nurturer

Allah is the One Who created everything, from the stars and planets, to people and jinn, to ants and dust. He takes care of everything, giving everything what it needs to survive and grow, and He is the Owner of everything in existence. He created us, and gives us what we need for our bodies to grow, and our hearts and minds to develop. He nurtures the little seed in its shell with sun, water and soil so that it may grow into a plant, just as He nurtures us with food, water, air and His guidance and love so that we may grow into strong believers.
